

Item 1

Claim 4

6.G.A

4.MD.A.3

SAMPLE	SCORE	RATIONALE
A	0	Incorrect response. It appears that the student correctly inferred the missing side length, but then added two sides of the rectangle, 10 ft and 12 ft, instead of multiplying using the formula $A = l \times w$.
B	0	Incorrect response. The student may have attempted to use the formula for finding the perimeter of a quadrilateral, and incorrectly added the side lengths.
C	1	Correct Response.
D	0	Incorrect response. The student reported the width of the ceiling instead of the area.
